

STR Reporting - Revenue

8th December 2021

Suspicious Transactions Unit

Suspicious Transaction Report (STR)

What is it?

- * A report by designated persons of **suspicious** of money laundering or terrorist financing including the laundering of the proceeds of tax evasion.
- * Designated person must make report as soon as practicable.
- * A Revenue source of intelligence **not** evidence.

Why we look for STRs

- In Ireland STRs are received by both FIU and Revenue
- Close co-operation between Revenue and FIU
- STRs can provide ‘red flags’ for both criminal and revenue intelligence led activity.
- Difference in typologies between Revenue and FIU

- * Reporting Entities Can:
 - * XML upload: Upload a single or multiple STR returns in XML format. You can complete the form in the FIUs GoAML system and download the generated XML to upload in Revenue.
 - * Web Report: Complete and submit an online form detailing suspicious activity. This file can be saved and later uploaded to the FIUs GoAML system.
 - * Save attachments.
 - * Receive on-line acknowledgements of STRs submitted.

What you need to Submit On-line

- * To use the service, you will need:
 - * Revenue Online Service (ROS) login details and a valid ROS digital certificate;
 - * To register on ROS for STR reporting obligations. The FIU Organisation ID (which is available on FIU [GoAML website](#)) is required for STR registration;
 - * A ROS sub-user certificate for all MLROs for STR reporting.

How do Revenue use STRs

- * STRs are risk rated, data matched to customer file
- * Extensive use of data analytics to identify outlier behaviour consistent with non compliance.
- * Enhances the intelligence available to Revenue's investigation and intelligence teams.

How do we use STRs ?

- * What they give us:
 - * A profile of a business's/individuals activity that is not in keeping with their tax returns
 - * Transferring proceeds of legitimate business to evade tax.
 - * Criminality or links to criminal groups.
 - * Financial links to businesses with high risk (missing trader fraud, Phoenix directors).
- * High quality STRs can therefore:
 - * Support an existing case.
 - * Produce a new case.

Quality STRs

- ❖ Good quality STRs are vital
 - ❖ Name, full address (also previous) and date of birth
 - Any form of Unique ID used to open account and confirm clients identity - passport number, drivers licence number, age card, proof of address etc.
 - Monetary value of suspicious transaction(s).
 - Reason for Disclosure

COMMUNICATIONS

- * Information is available on the Revenue Website including detailed Guidelines
- * Hard Copy STRs no longer accepted by Revenue.
